

Southeast Missouri Hospital Implements Chart Links Rehabilitation Software for Therapists

Chart Links, LLC announces the implementation of its rehabilitation software by HealthPoint Rehab which consists of two outpatient rehabilitation centers for Southeast Missouri Hospital, a 269-bed regional medical complex serving southeast Missouri and southern Illinois. The implementation includes functionality for electronically managing therapy documentation, scheduling, referrals, insurance authorizations, charges, and more.

New Haven, Connecticut and Cape Girardeau, Missouri (PRWEB) February 27, 2009 – Chart Links, a provider of rehabilitation workflow management software, announces the implementation of its therapy documentation and scheduling system by a team of 26 physical, occupational and speech therapists and assistants at HealthPoint Rehab, consisting of two outpatient rehabilitation facilities, for Southeast Missouri Hospital. Southeast Missouri Hospital is a 269-bed regional medical complex serving nearly 600,000 people in 21 counties in southeast Missouri and southern Illinois.

The implementation includes functionality for electronic therapy documentation, cross-discipline therapy scheduling, referral and insurance authorization management, charges and more. It also includes an ADT and billing interface to the Meditech hospital information system.

"Transitioning to electronic medical records was the right decision," says Frankie Erlacker, PT, MHS, Executive Director of HealthPoint Rehab. "Southeast chose Chart Links both because it could be customized to meet the unique needs of the department and because of the support Chart Links offered during the building and implementation process. With Chart Links, we will document according to national standards in a way that makes sense to both clinicians and our referral sources. The management staff will be able to more effectively monitor trends and strategize proactively."

Chart Links software streamlines all of the daily tasks associated with a patient's physical therapy, occupational therapy, speech language pathology, or audiology visit. The software manages adult and pediatric therapy treatment by automating evaluations, flow sheets, plans of care, progress notes, patient education, and clinical correspondence. It also manages payer compliance, provider reimbursement, outcomes reporting, administrative functions, business intelligence and enterprise productivity.

About Chart Links, LLC

For 15 years, Chart Links has developed rehabilitation software that automates workflow for referrals, insurance authorizations, cross-discipline scheduling, documentation, charges, and more. Chart Links allows medical rehabilitation facilities to be more efficient and to provide a higher quality of care by delivering results in the areas of compliance, outcomes, analytics and revenue. <http://www.chartlinks.com?source=prweb>

About Southeast Missouri Hospital's HealthPoint Rehab

Southeast Missouri Hospital's two HealthPoint Rehab complexes, located in Cape Girardeau and nearby Jackson, MO, offer a full scope of specialized physical, occupational and speech therapy services as well as orthopedic and sports medicine for both adults and children. Highly specialized therapies include lymphedema therapy, treatment for TMJ disorders and myofascial release. Both facilities are equipped with large, state-of-the-art therapy gyms as well as private treatment areas. The highly experienced, credentialed therapists make the transition from rehabilitation to fitness a personalized experience for patients.

HealthPoint Rehab in Cape Girardeau also utilizes both warm water and fitness pools for therapeutic aquatics.
